ESCO: European Skills, Competences and Occupations
NKOS: Networked Knowledge Organization Systems

Part 1: What is ESCO

ESCO main reference

- ESCO
 - <https://ec.europa.eu/esco/home>
 - European Skills, Competences, Qualifications and Occupations
 - [DG Employment, Social Affairs and Inclusion](#) and [DG Education and Culture](#) of the European Commission develop ESCO in collaboration with stakeholders and with the [European Centre for the Development of Vocational Training \(Cedefop\)](#). An H2020 initiative.

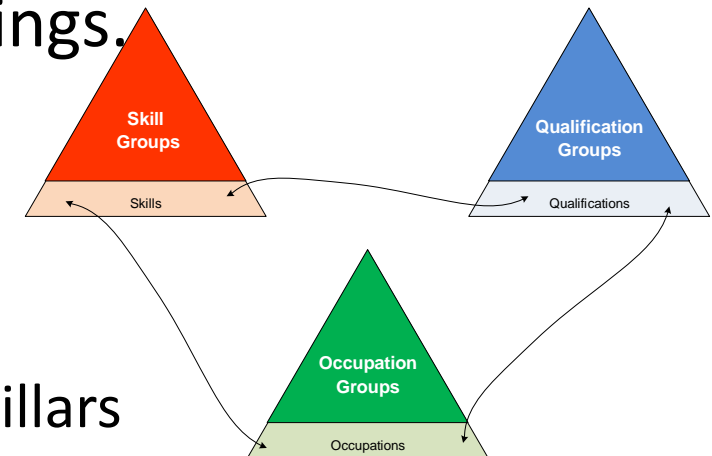

EC: European Commission

DG: directorate general

H2020: Horizon 2020, EC programme for Research and Innovation

ESCO objective (1/2)

- Provide the EU with a set of cross boarder multi-lingual vocabularies to facilitate EU job market transparency by using the ESCO thesauri as a hub for translating and encoding CV and Job Postings.
 - A set of thesauri/taxonomies (three “pillars”):
 - Occupations
 - Skills and competences
 - Qualifications (certifications)
 - Semantic relationships between concepts of the three pillars
 - Occupations and Skills/Competences: essential and optional skills for an Occupation
 - Occupations and Qualifications: Qualifications required for an Occupation
 - Qualifications an Skills/Competences: Skills asserted by a Qualification (certificate)

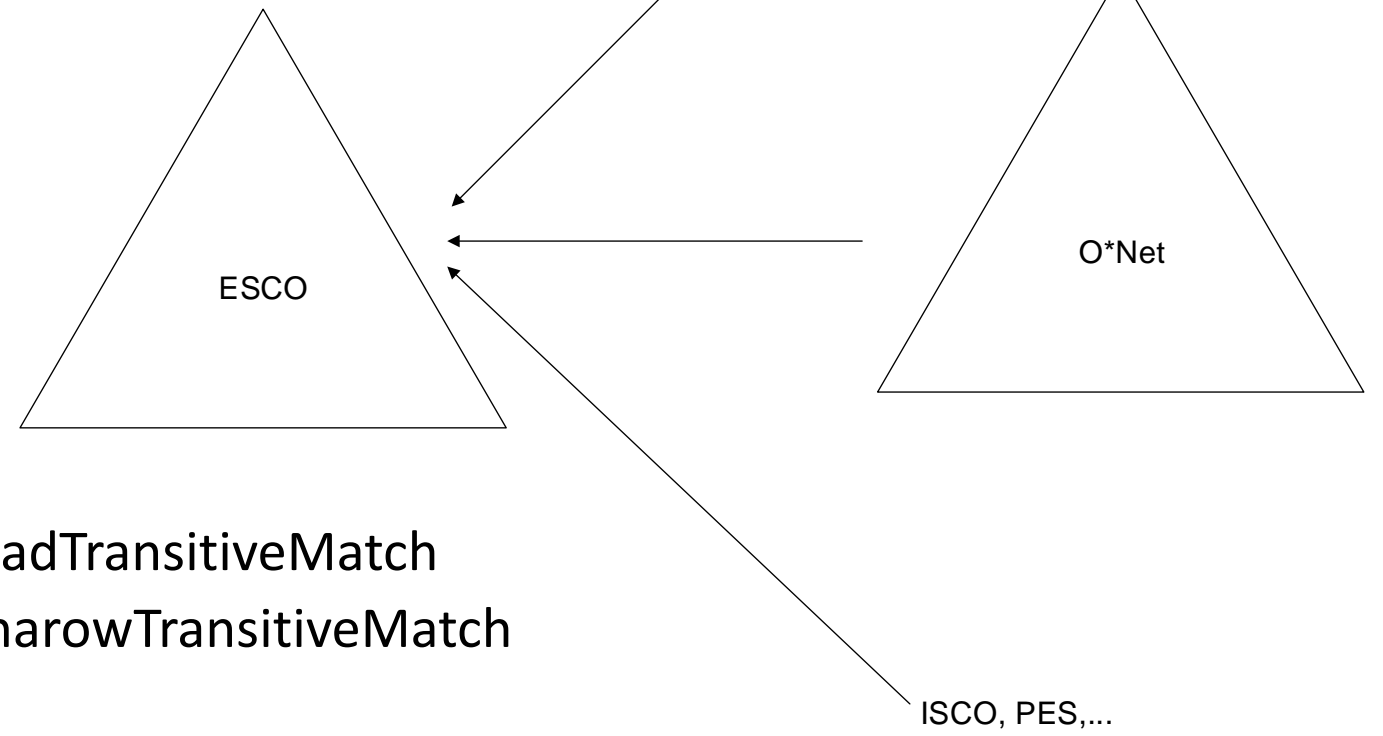

ESCO objective (2/2)

- A hub taxonomy for labor market players
- Compose
 - exactMatch **o** exactMatch
 - exactMatch **o** closeMatch
 - exactMatch **o** broadMatch
 - broadMatch **o** exactMatch
 - exactMatch **o** narrowMatch
 - narrowMatch **o** exactMatch
 - broadMatch **o** broadMatch **▷** esco:broadTransitiveMatch
 - narrowMatch **o** narrowMatch **▷** esco:narrowTransitiveMatch

ESCO is a hub thesaurus for mapping like classification system about either of

- occupation
- skill
- qualification

ESCO Current Status

- ESCO versions
 - Version 0 is currently published
 - Version 1 is currently ongoing and will make partial upgrades (v0.1, v0.2 ...) until v1 is established (from end 2013 until early 2017).
 - Version 0.1 is targeted for publication on 2015-02.
 - Improvements for 3 sectors:
 - Agriculture, Forestry and Fishery;
 - Hospitality and tourism;
 - Veterinary

News

30-05-2014

[New expression of interest to join one of ESCO's Reference Groups](#)

Currently, ESCO is being developed together with stakeholders and experts grouped according to their professional expertise around 11 Sectoral Reference Groups and the Cross-sector Reference Group. Another 16 Sectoral Reference Groups will be established...

07-05-2014

[Welcome to the new ESCO portal](#)

The Commission has made an overhaul of the ESCO portal since it was launched in October 2013 with the release of the ESCO classification v0. Maintaining a similar style and colour scheme, the revamp makes it easier for users to...

11-12-2013

[ESCO Goes live Conference – success shared with 350 participants](#)

On 23-24 October, the European Commission launched the classification of European Skills, Competences, Qualifications and Occupations (ESCO) during the conference...

14-11-2013

[ESCO v0 new features](#)

The now public ESCO v0 is a classification of skills and competences, occupations and qualifications. In total the classification contains more than 200 000 terms...

14-11-2013

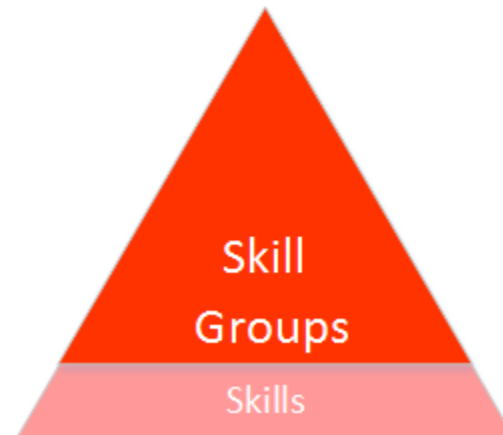

[New Sectoral Reference Groups from 2014](#)

ESCO is being developed by the European Commission together with the support of the European Centre for the Development of Vocational Training (Cedefop) and with stakeholders...

Part 2: ESCO as an NKOS system

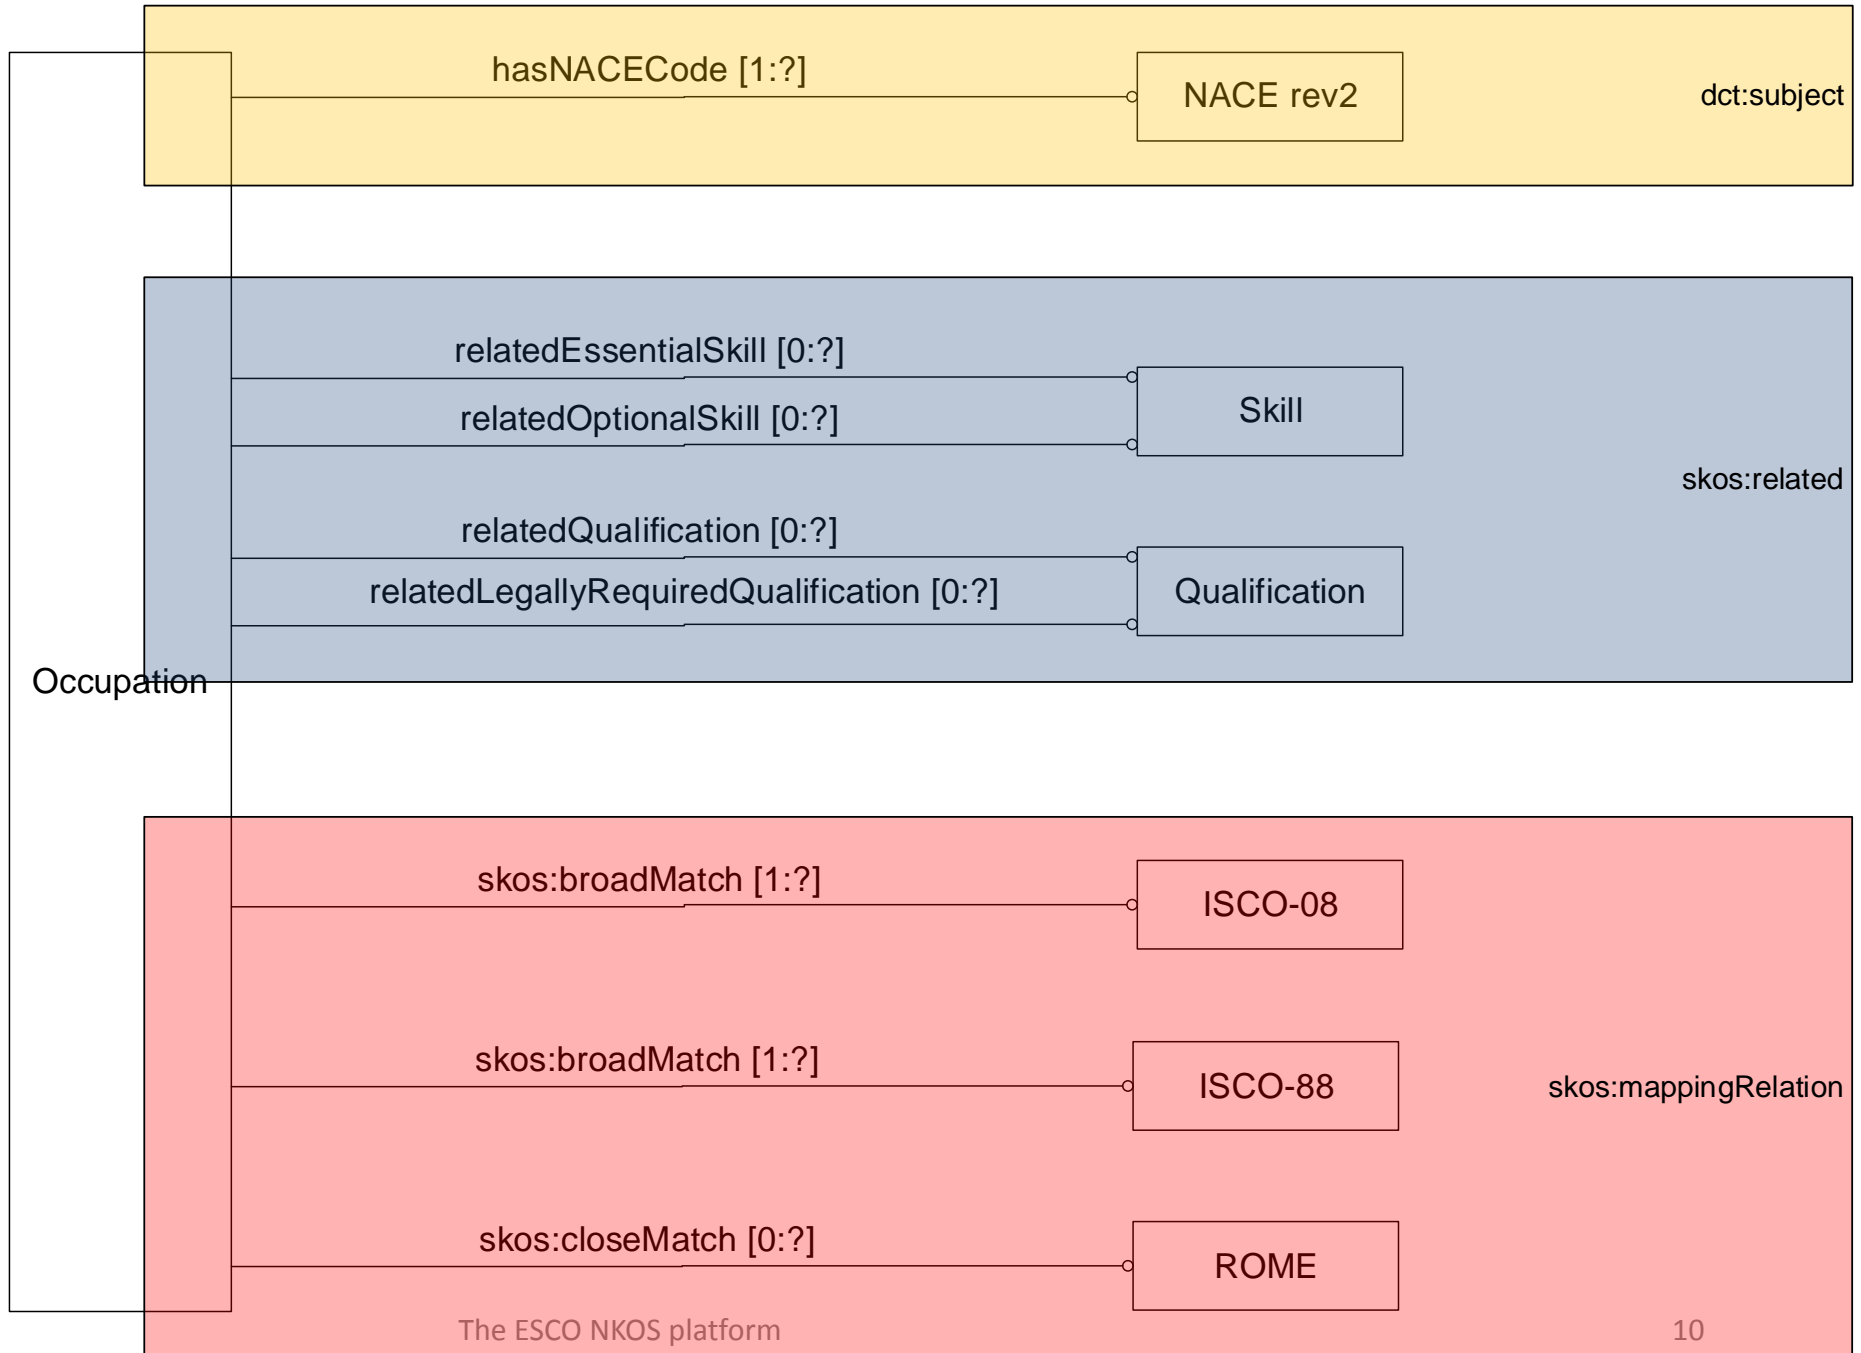

ESCO KOS

- Three main taxonomies
 - Top structure is a hierarchy of classes or groups
 - Lower structure is a hierarchy of instances
- Two registers

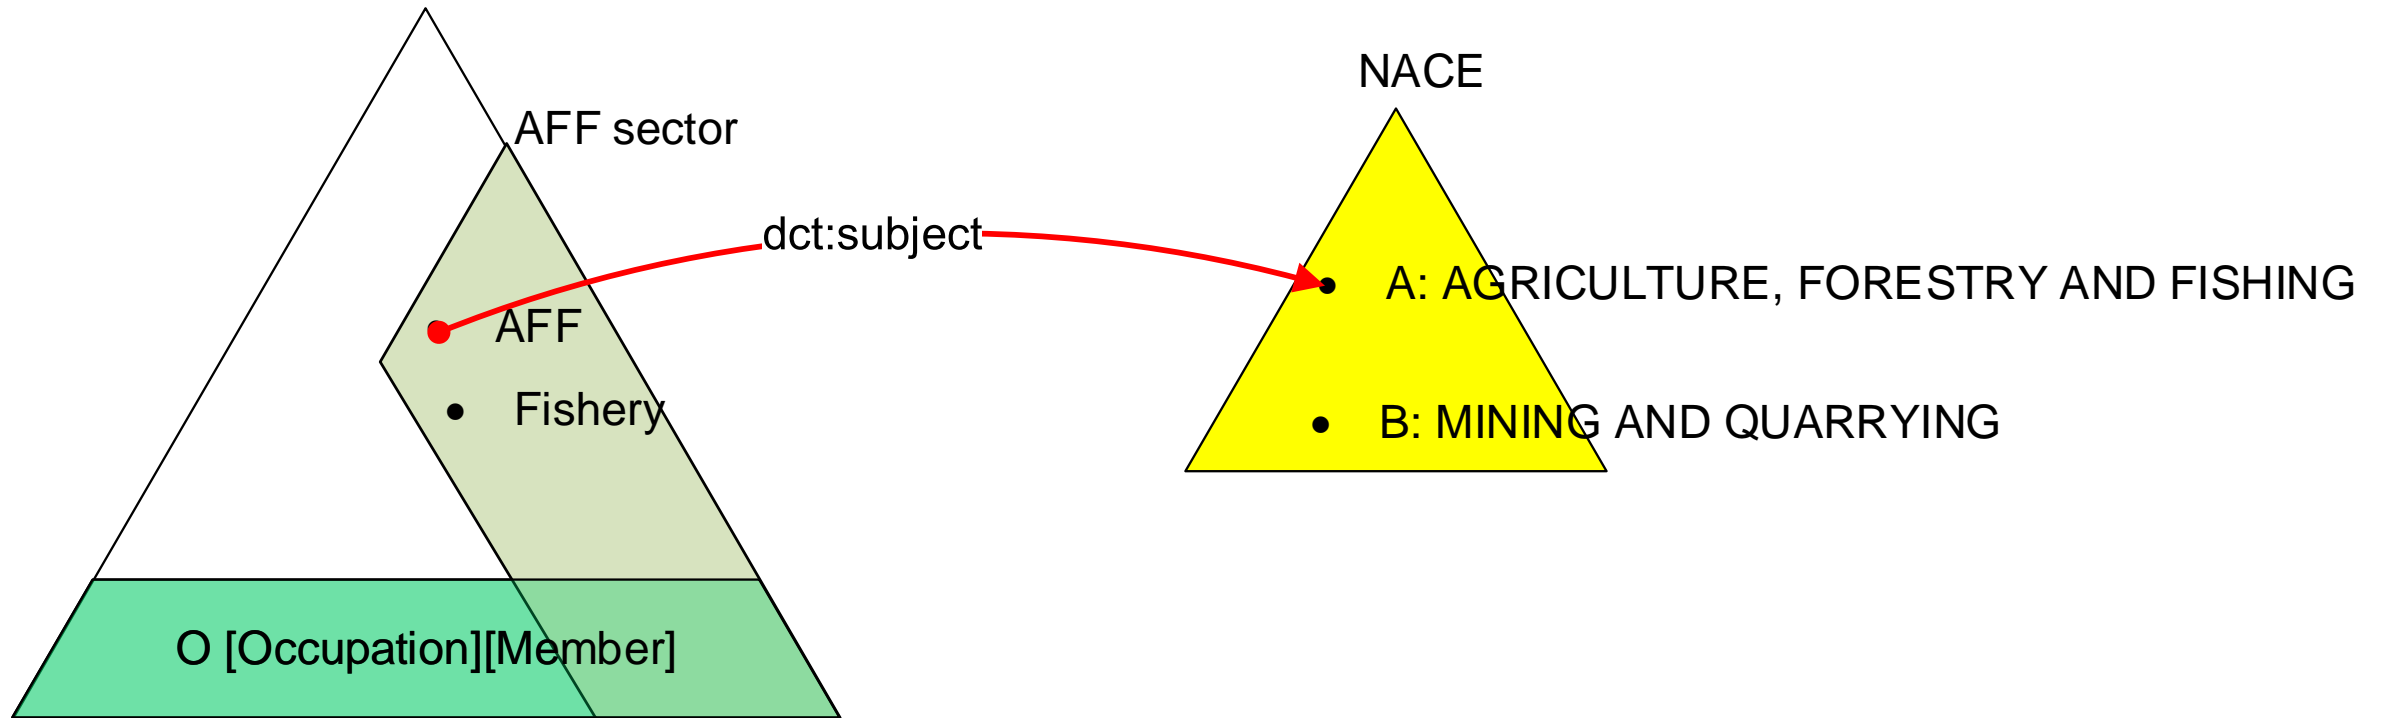

Occupation

- Example of other used vocabularies
 - Languages (Publication Office, Library of Congress)
 - CERF (Common EU reference framework for languages)
 - Countries
 - NUTS (Eurostat EU regions)
 - EQF (European Qualification Framework)
 - FoET (Unesco Fields of education and training)

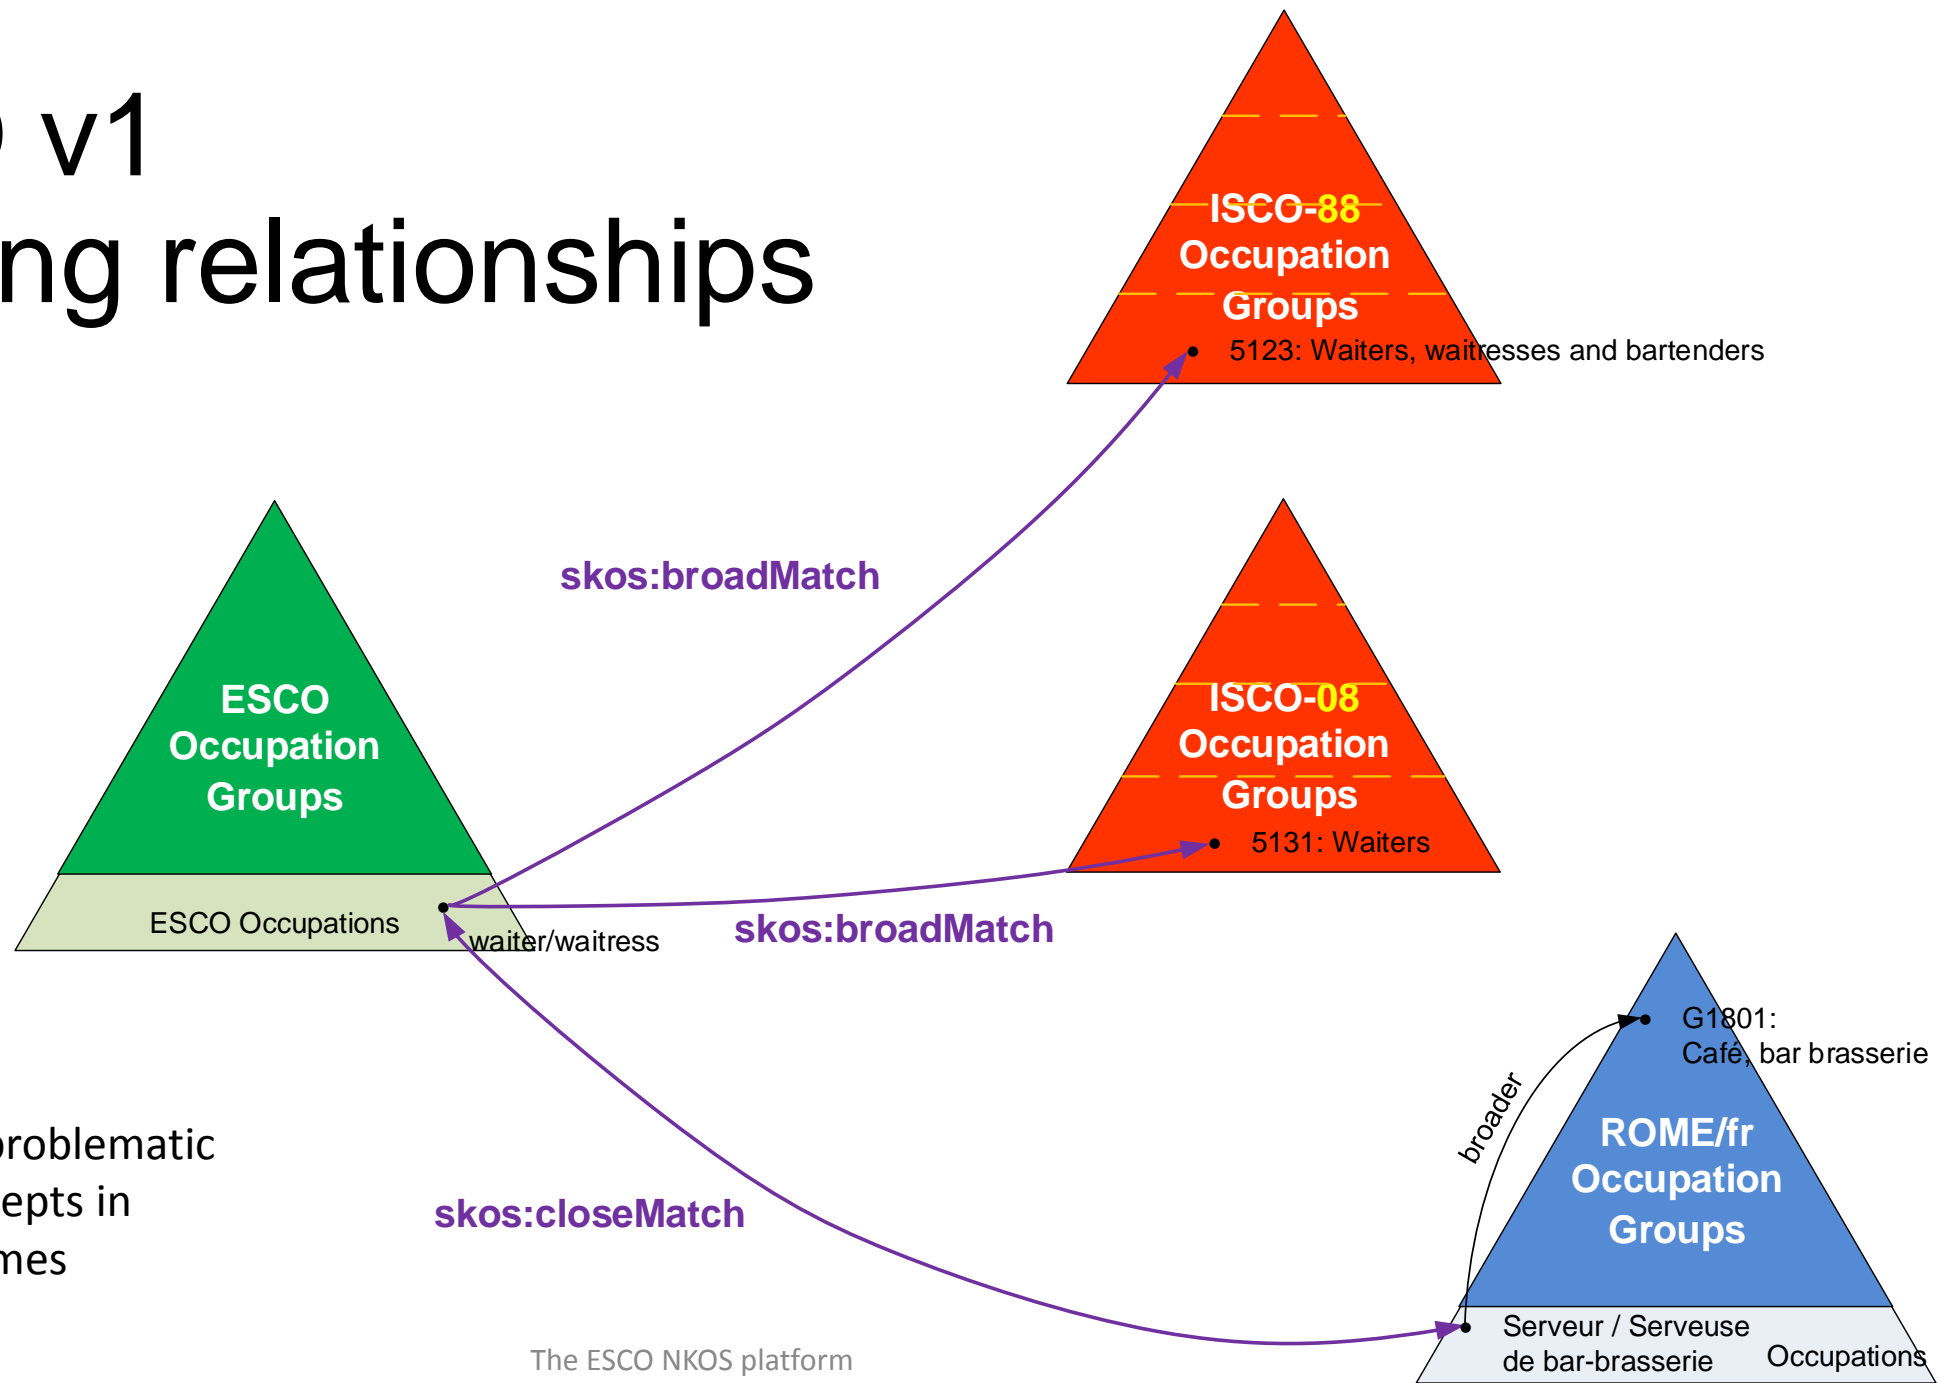

ESCO v1 Tagging Occupations with one or more dct:subject ranging over NACE codes

ESCO occ pillar

ESCO v1

Mapping relationships

Accuracy is sometimes problematic
- different scope of concepts in
different concept schemes

Inconvenience

- When mapping concepts in different `skos:ConceptScheme`, the `rdfs:subPropertyOf` between
 - `skos:mappingRelation` (`skos:broadMatch`, `skos:narrowMatch`) properties and the respective
 - `skos:semanticRelation` (`skos:broader`, `skos:narrower`) properties

Typically gets problematic as it makes a dependency between the hierarchies in the different concept schemes

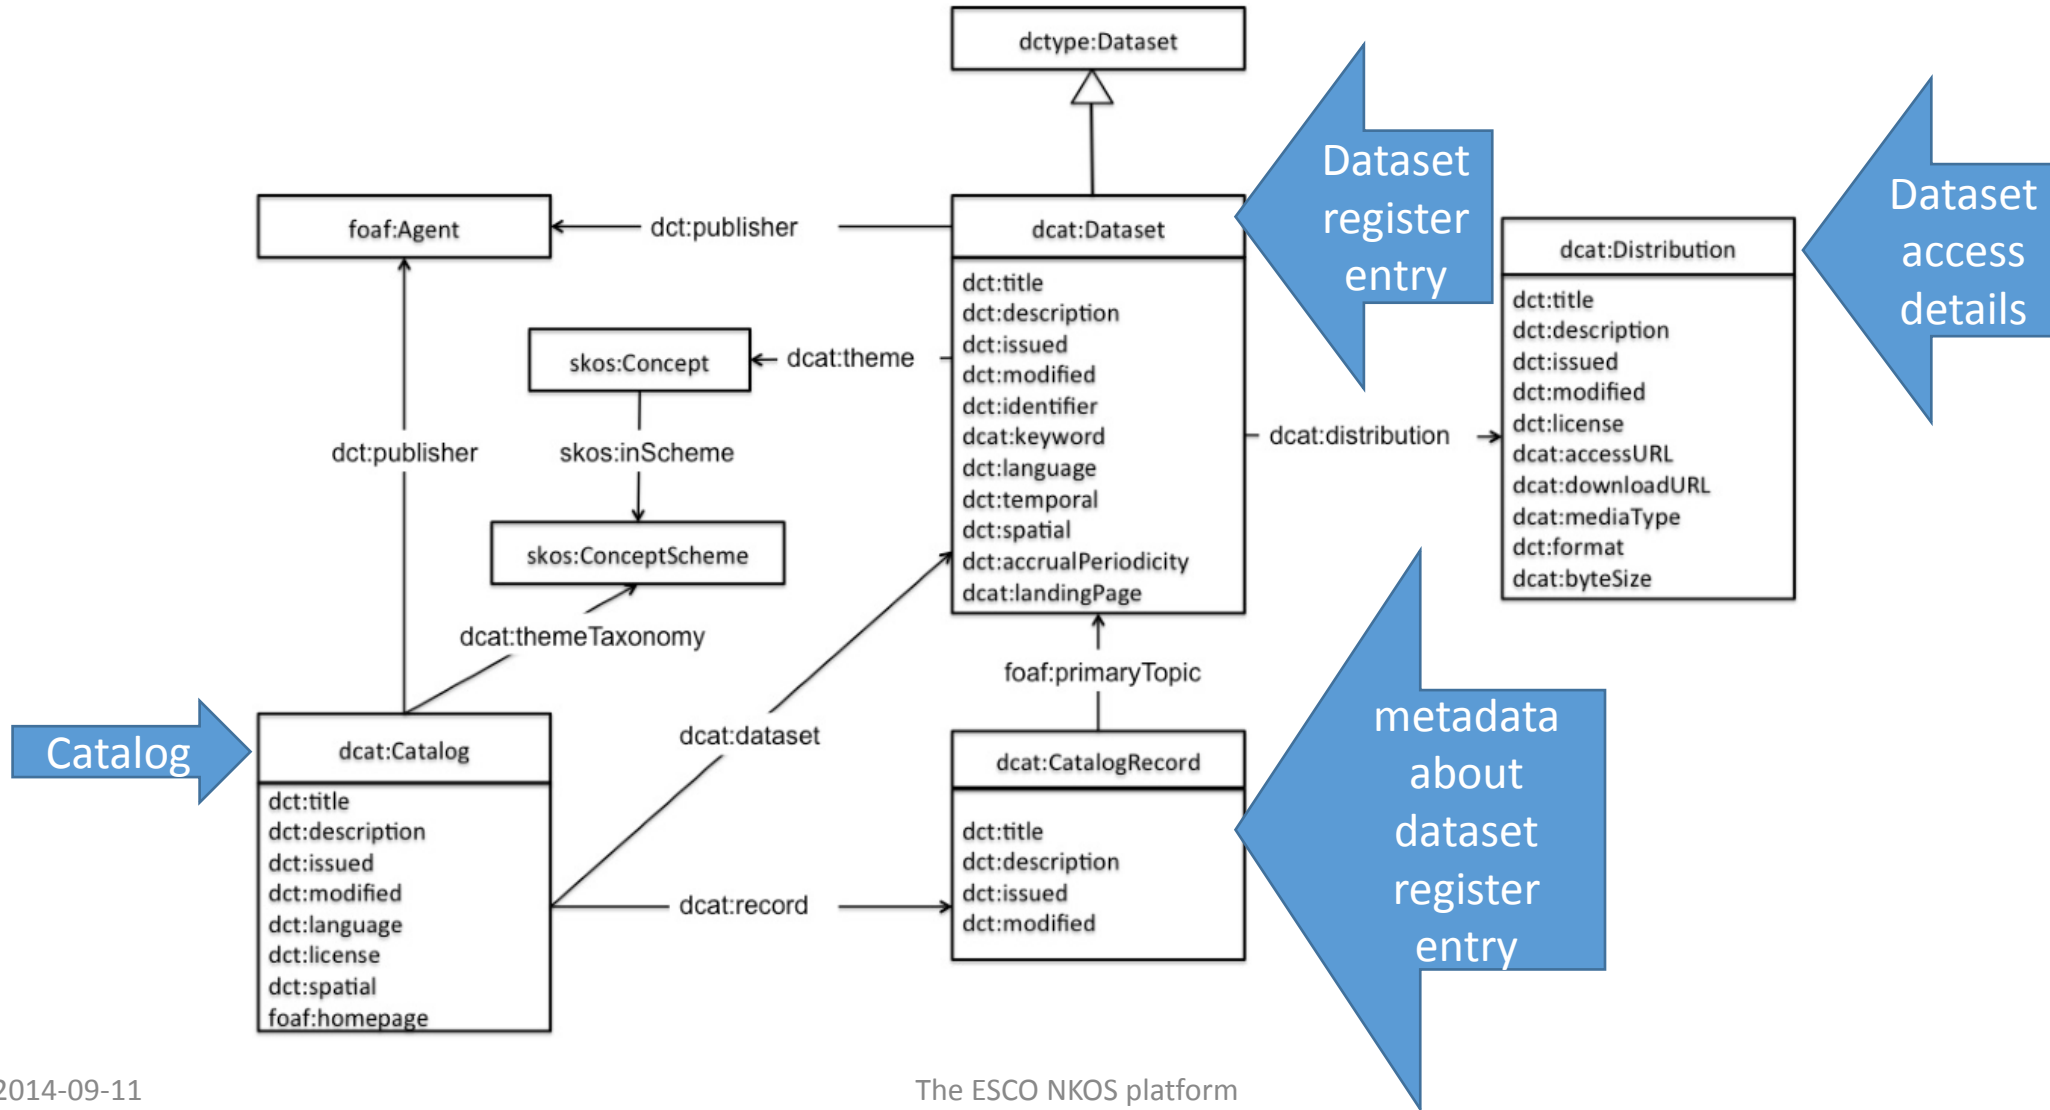

- Proposal
 - Make the mentioned property hierarchy not a required part of SKOS or SKOS-XL, but use them as a possible SKOS extension.

Part 3: Versioning

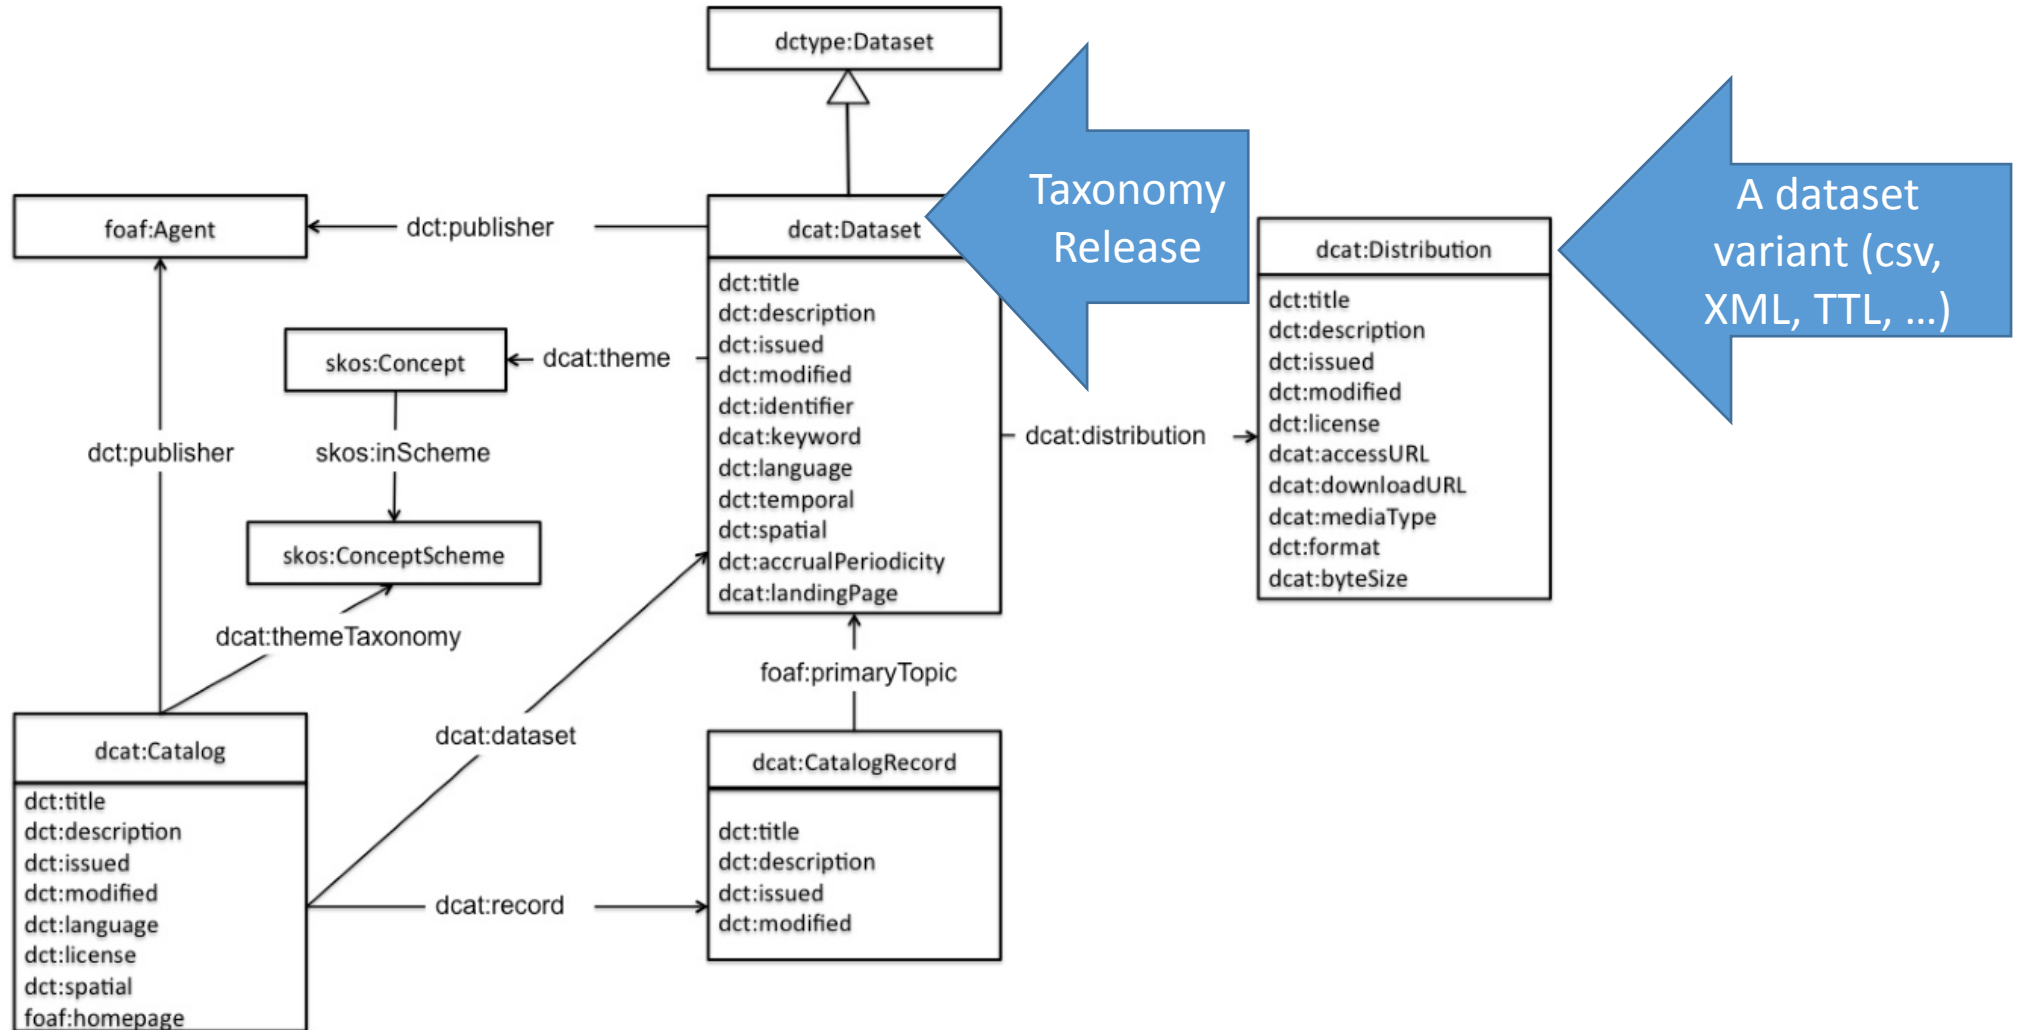

Versioning – modelling

- Dataset versioning based
 - DCAT (<http://www.w3.org/TR/vocab-dcat/>),
 - ADMS (<https://joinup.ec.europa.eu/asset/adms/home>) for dataset and resource versioning
- Versioning ontology for thesaurus or dataset versions
 - Development: <https://github.com/JohanDS/Dataset-versioning--for-KOS-data-sets>
 - Availability: <http://purl.org/iso25964/DataSet/Versioning>
- Publication Office of the EU (future work – see WS presentation Jean Delahousse)
 - Concept and Label versioning
 - PROV-O (<http://www.w3.org/TR/prov-o/>), ADMS, Dublin Core

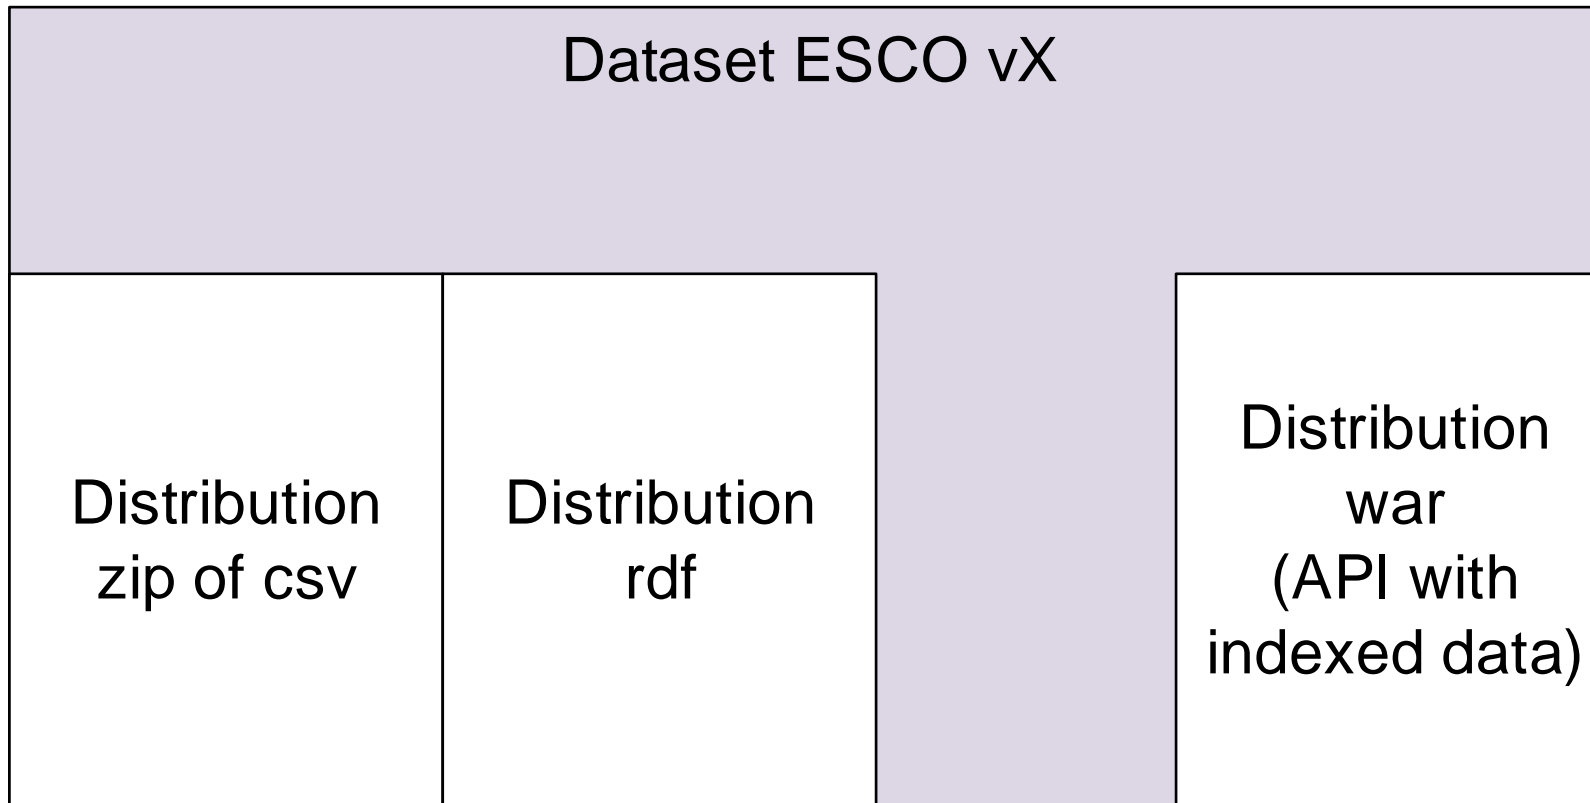

DCAT – a catalog ontology

DCAT – a catalog ontology

DCAT Register Entry for ESCO

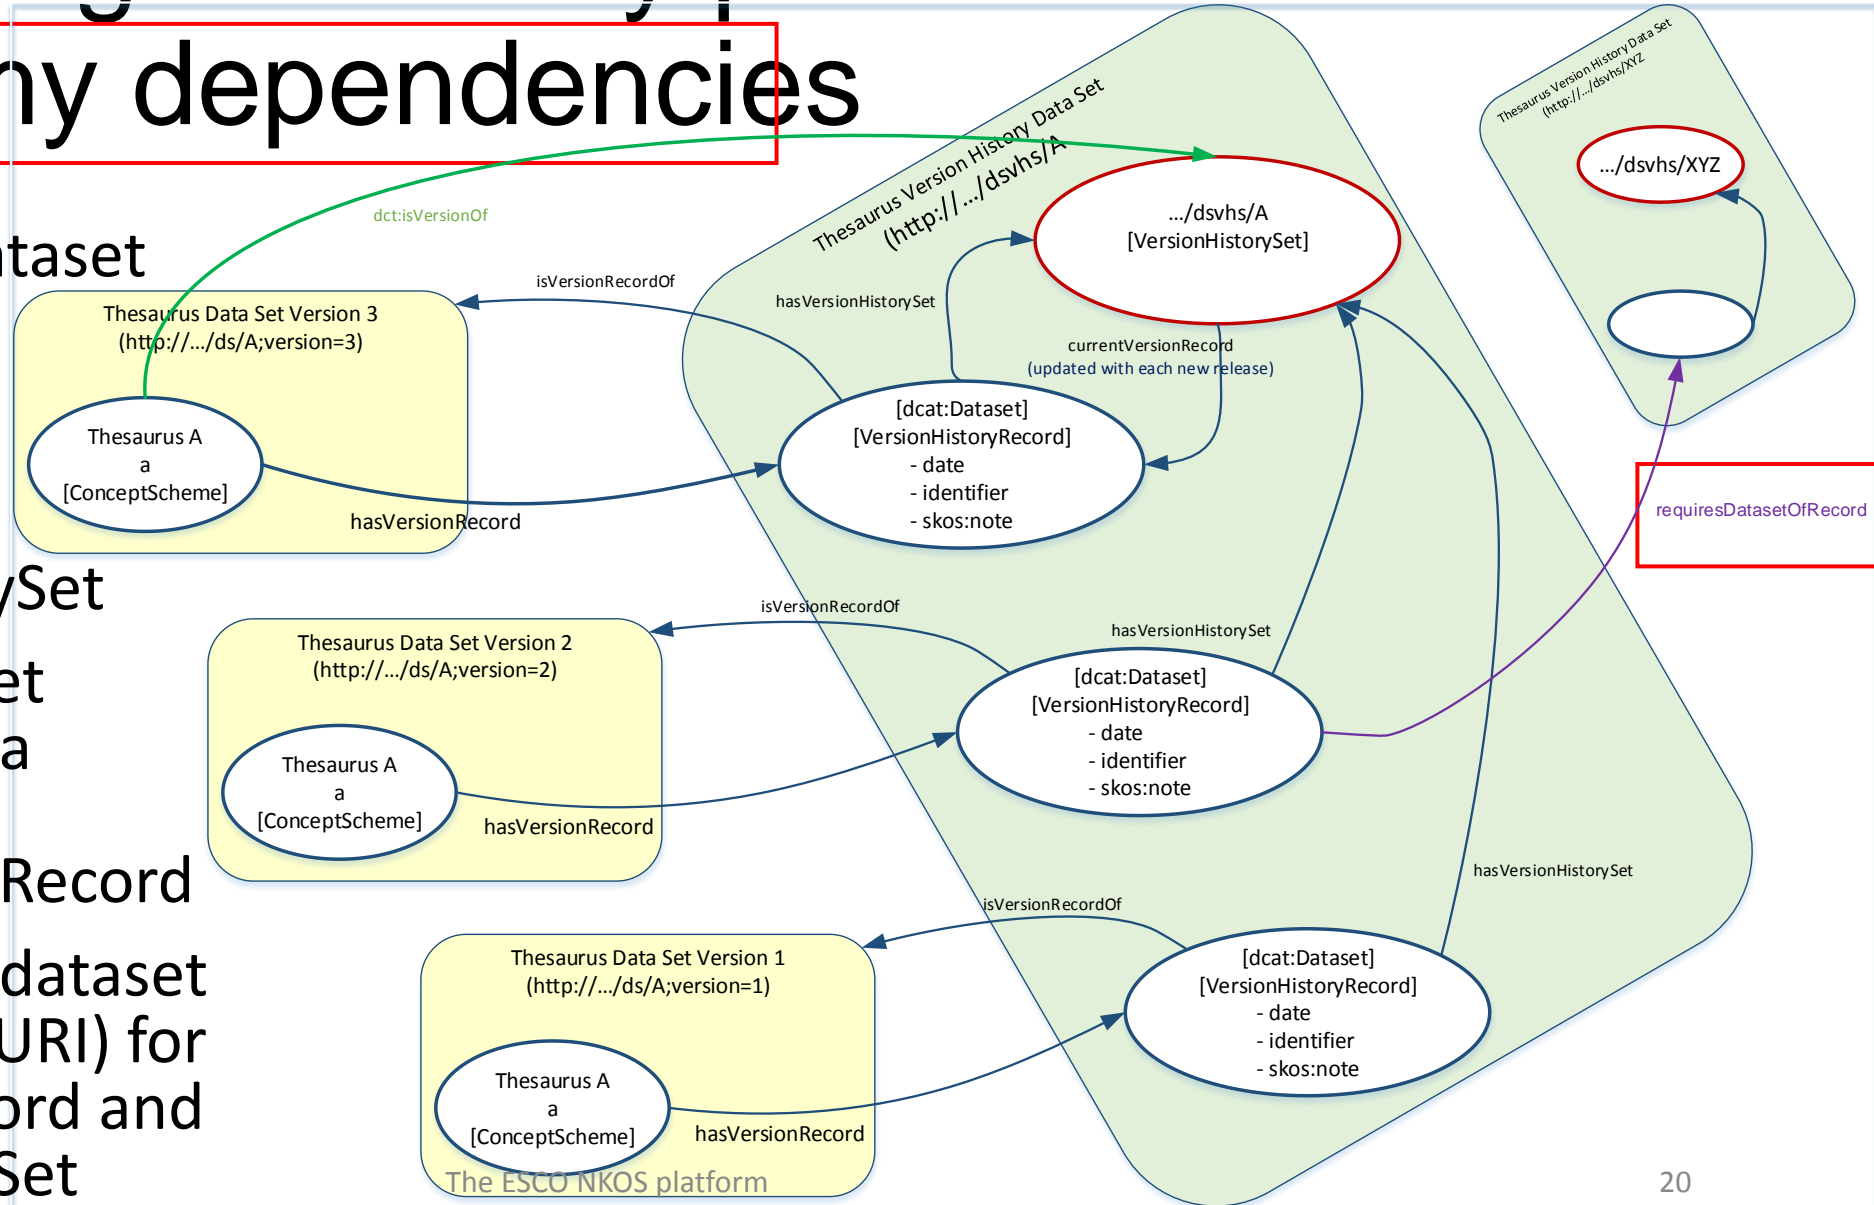

DCAT register with entries for ESCO versions

- Two ESCO versions in the register
- Two versions of ISCO in the register
- The ESCO version control graph, a registered dataset.

ESCO DCAT catalog		
Dataset ISCO-08		
c	r	
Dataset ESCO v1		
c	r	w
Dataset ISCO-88		
c	r	
dataset ESCO v0		
c	r	w
ESCO Version history dataset		
c	r	

Versioning taxonomy publications and taxonomy dependencies

- Per thesaurus, one dataset with fixed URI manages the taxonomy dataset releases, LOD access i.e. the VersionHistorySet
- Each thesaurus dataset release is detailed by a DCAT dataset record i.e the VersionHistoryRecord
- A released thesaurus dataset holds an identifier (a URI) for its VersionHistoryRecord and to the VersionHistorySet

Part 4: Thank you

- Q&A
